GOOD TO KNOW

Selected products from 25 units · 7–14 working days · 6+ months shelf life

What's the minimum order?

Minimums start from 25 units and vary by product. Each one is shown on its product page.

How long do the sweets last?

Typically at least 6 months best-before on sweets, and often longer. Need a longer date? Tell us when you place your order.

Are they vegan? What about allergens?

Most of our range is vegan, with classic non-vegan options too. Full allergen information is available on request.

Can you match our brand colours?

Yes. We print digitally, so full-colour logos and artwork are closely matched, with no limit on colours.

How quickly can you deliver?

Most orders are produced in 7–14 working days. Got a deadline or event date? Tell us and we'll do our best to meet it.

What are they used for?

Corporate gifts, marketing campaigns, event favours, weddings, hospitality welcome gifts and retail products.

How do you handle food safety?

We hold a 5-star food hygiene rating and handle every product in line with UK food safety regulations.

What can you brand?

Tags, labels, wraps and print on food on most products. Or go fully bespoke with custom sweets, themed mixes and tailored packaging.

Is the packaging sustainable?

Where possible we use recyclable, reusable or lower-impact packaging, and we're always looking to improve.

Can you deliver, and what does it cost?

Yes. Delivery to one UK address is £15 + VAT, or free on orders over £500 ex VAT. Extra addresses and deliveries outside the UK are charged separately. We can also ship direct to your clients under plain cover.

Can we try before we buy?

Yes. Free samples are available, just ask.
